

# WORKPLACE CHALLENGE

## February 2019 ~ Workplace Challenge Assignment

You and your best friend both applied and got into nursing school. You are both excited to be doing this together.

During a study group, your best friend tells you that he/she was given the answers to the upcoming medical surgical exam. You know that the test is important. If you do not pass, you will be out of the program.

- What do you do?
- What are the implications, not only from the school, but beyond that if you cheat?
- Who would you be hurting or affecting if you cheat or don't cheat?
